

Job Posting
CRC - Psychiatry

DM Clinical Research, the largest privately-owned research management organization in the Houston area and one of the top 50 CROs in the country, is looking for an experienced **Psychiatric Clinical Research Coordinator** to join our team of professionals at the Texas Center for Drug Development. This role will be responsible for:

- Ensuring compliance with research protocols by reviewing all protocol requirements to confirm implementation of appropriate methods, practices, and procedures for all clinical activities.
- Collaborating with both internal and external cross-functional teams.
- Working closely with study investigators to ensure protocol compliance is followed and subject safety maintained.
- Participating in subject recruiting efforts.
- Engaging with subjects and addressing their concerns.
- Administering and scoring psychometric tests for clinical trial participants in accordance with the study protocol..

Requirements

- Must have at least two years psychiatric experience.
- Have at least two years of experience as a Clinical Research Coordinator, preferably with practice coordinating industry sponsored trials in a private setting.
- Bachelor's degree required.
- CCRC certification a plus.
- Spanish Bilingual preferred.
- Be an energetic, go-getter who is detail-oriented and can multi-task.
- Be goals-driven while continuously maintaining quality.

We offer excellent compensation, benefits, and opportunities for continuous career advancement; please apply for immediate consideration.
